#### Intensive use of renewable resources - continuous increase of the reutilisation score

- Production under extensive use of renewable raw materials and energy using to 100% hydroelectric, solar and geothermic power
- Production widely independent of crude oil: 94% of organic carbon processed in SANET spray originates from renewable plant resources which enables a production that is widely independent of crude oil
- Active water stewardship maintaining an own fresh and waste water treatment

#### Ingredient declaration

For the ingredients list, please see the Safety Data Sheet

#### Traditional German quality - driving your durable business development

- More than 30 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

#### Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning
- Increased service value and strengthened company reputation

# **SANET** spray

### **Effective** Ready-to-use sanitary maintenance cleaner

■ Refreshing scent ■ Versatile ■ High performance

#### **Product profile**

- SANET spray is a high-performing ready-to-use cleaner for the removal of all common soilings in the sanitary areas,
  e.g. lime scale, lime soap, greasy and cosmetic residues.
- SANET spray is simple in application, saves time and costs and protects the material.
- Thanks to intensive and refreshing perfume, SANET spray leaves a long-lasting and clean scent.
- Majorly composed of renewable resources, coming in a bottle made of 100% recycled plastic, SANET spray takes on the responsibility for future generations.
- The environmental-friendly and effective composition of SANET spray allows it to be used safely throughout the entire bath and sanitary area, e.g. hotels, office buildings, public and private facilities.

#### Area of application

- SANET spray is ideally suitable for maintenance cleaning of wash basins, fittings, tiles, ceramics, showers, etc.
- The product can be used on ABS (Acrylonitrile butadiene styrene), Makrolon® / Polycarbonate (PC) and PLEXIGLAS® / acrylic glass.
- Also applicable on chrome and brass tapware.
- Do not use on marble or other acid-sensitive materials.

#### Product safety, storage and environmental instructions

Safety: For professional use only. For further information, see Safety Data Sheet.

Storage: Store at room temperature in the original container.

**Environmental:** Only give completely emptied container to special waste disposer. The product is not intended for large-scale cleaning. For maximum effectiveness always use the correct dosage. This will minimize water consumption and reduce water pollution.

Dose in relation to application and degree of soil. Follow below instructions.

Sanitary cleaning: Spray onto clean cloth, wipe the surface and rinse.

Descaling, persistant soil: Leave the solution for a few minutes. Rinse with clear water.
